2. MUSIC: QUARTET, RANGER®S SONG.

3. ANNOUNCER: For most of us a Christmas without Christmas trees

4. would be hard to imagine. The Forest Service

5. estimates that 10 million Christmas trees are used

in the United States every year. These millions of

trees not only add freshness and color to the holiday

season but to thousands of rural people means

employment and an essential source of income.

Unfortunately much Christmas tree cutting is done in

the United States with little or no regard for future

crops or the ultimate good of the forest stand.

On the other hand, if the trees are properly selected

and out, foresters assure us that the removal of the

trees can be accomplished without damage to the forest

stand.

17. In the National Forests, for instance, Christmas tree

18. cutting is allowed under regulations so that improvement to the forest

19. always results.

20. Well, the Christmas season is bringing cheer and

21. happiness to our friends out on the Winding Creek District of the Pine

22. Cone National Forest too. While the snow is coming down in great white

23. flakes in the darkness outside, Ranger Jim Robbins and his wife Bess, and

24. Jerry Quick and Mary Halloway are gathered in the Robbins living room at

25. the ranger station. They have spent the evening decorating the Christmas tree -- and here they are now sitting in front of a glowing fire relaxing and enjoying the beauty of the tree.

Well, it was back in the days of the late fifties or sixties. San Francisco and other towns on the coast were building up fast. Times were booming. Lumber schooners running up and down the West Coast between California and the great lumber ports in Washington and Oregon working day and night, Sundays, helidays and all other kind of days to keep up with the demand for building materials. One of these boats was the Cliff Eagle and the captain of this boat -- well Captain Eagle was one of the best skippers on the Pacific. But he was the toughest, orneriest critter that ever stood on a bridge; kinds like Captain Bligh of the Bounty ... Well, the strangest thing about Captain Eagle was his wife ... How in the name of Ned he ever got her to marry him was always a mystery. She was small and slender, with a round white face and black, silky hair, and a voice that sounded like far-away music on a still summer night. She always sailed with the Captain. Got to be sort of a missionary among the sailors on the West Coast. Made 'em write home more, held church services on the ship; but she got more of a reputation for singing than anything else. It wasn't just because she sang so beautifully herself. but she used to get the crew to singing with her. And she got to be a sort of a legend among those sailors, kind of a Jenny Lind ... Captain would bluster and say it was a lot of foofarah, but she kept right at it ... And then one Christmas night they were at sea with a heavy cargo bound for Seattle. They'd been blown off their course by a gale that kept getting worse every hour ... Itill finally the ship sprung a bad leak.

1. JIM: (CONTINUED)

She floundered along in the heavy seas, makin' no 2. headway at all, the Captain driving his men for all they were worth, 3. But there wasn't anything they could do, no matter how hard they were 4. 5. driven. And along toward midnight everybody knew the ship was going 6. down. ... Then his wife came out of her cabin and started in to sing. 7. One by one, the men joined in until the whole crew was singing with her-8. The Captain shouted at 'em and cussed 'em and told 'em he'd have 'em 9. all nung for mutiny. But through the howl of the wind and the storm 10. you could hear the voices of the men as they sang --- The ship went 11. down with the Captain's wife still singing. Two of the men clung to 12. the rigging and were picked up later. None of the rest were ever heard 13. from ... until about three months later, when Captain Eagle himself 14. turned up in Sesttle ... He never spoke a word about his ship ... nor 15. his wife one nor the crew. For a long time he wandered up and down the 16. coast. They called him the "ghost" Captain ... Finally, a company that 17. had several lumber schooners gave him one of their ships. But he still 18. drove his men, had a hard time getting a crew together. ... Well, 18 19. was the day before Christmas and Captain Eagle was in port at

- 20. Vancouver, with his ship all loaded with lumber, ready to go out with
- 21. the tide that evening. . . Christmas Eve. Along about sundown the
- 22. Captain was in his cabin ...
